**PUBLIC HEARING REGARDING THE A-1 AUTO PARTS SITE (DE-1172)**-Pursuant to 7 Del. C. §9109(a)(3) of the Hazardous Substance Cleanup Act (HSCA), the Department of Natural Resources and Environmental Control (DNREC)-Site Investigation and Restoration Section (SIRS) has rescheduled a public hearing for **May 7**, beginning at 10:00 a.m. in the Pat Ellis Conference Room at the offices of DNREC, 391 Lukens Drive, New Castle, Delaware 19720. The hearing will address the A-1 Auto Parts Site (Site) located at 410 Garasches Lane in Wilmington. DNREC originally advertised that the public hearing would be held on March 19 at the offices of

DNREC, but was recently contacted by the Site owner's counsel to negotiate a Consent Decree to address the performance and payment for a Remedial Investigation/Feasibility Study (RI/FS) to be performed at the Site without the need for an enforcement action. Thus, DNREC agreed to postpone the public hearing to allow enough time to negotiate a Consent Decree. Nevertheless, DNREC will continue to proceed through an enforcement action at a public hearing on May 7 unless the Consent Decree is signed, pursuant to §9109(a) (3) of HSCA, to require a remediation of the Site. **SITE INVESTIGATION AND RESTORATION SECTION** – The Division’s Site Investigation and Restoration Section (SIRS) is responsible for the identification, evaluation and remediation of sites in Delaware that have had past releases of hazardous substances. The Section manages the contaminated sites under three major programs in accordance with the Hazardous Substance Cleanup Act (HSCA). The three programs are the Brownfields Development Program, the

Voluntary Cleanup Program (VCP) and the HSCA Enforcement Program (for sites requiring enforcement action).

The Brownfields Development Program encourages the cleanup and redevelopment of vacant, abandoned or underutilized properties, which may be contaminated. A party seeking to develop such a property negotiates with SIRS for a Brownfields Development Agreement (BDA) to perform an investigation and, if necessary, a remedial action or remedy, for the purpose of addressing the risks posed by past releases of hazardous substances at these sites. However, a BDA is only available to parties that are not current site owners. The Voluntary Cleanup Program (VCP) Agreement is available to site owners, who want to clean up their sites and are already liable as a potentially responsible party for the site. Proposed and final plans of remedial action are available online at: <http://www.dnrec.delaware.gov/whs/awm/SIRB/Pages/SIRBPlans.aspx> under "Announcements." For site-specific information, please see DNREC's Environmental Navigator at <http://www.nav.dnrec.delaware.gov/DEN3>

The amendment states that DNREC must provide "public notification within 20 days after entering into negotiations for a voluntary cleanup settlement agreement with any person that agrees to perform a remedy." DNREC is negotiating a VCP Agreement with Community Plaza, LLC regarding the Community Plaza New Castle Site (Site), located at 287 & 295 Christiana Road in New Castle.
